RESPONSE UNDER 37 CFR 1.111

Dear Sir:

In response to the Office Action of September 23, 2002, please amend this application as follows:

In the drawings:

Please enter the attached set of substitute drawings, with corrected margins and line width, in this application.

REMARKS

Reconsideration and further examination is respectfully requested.

The drawings were objected to by the Draftsman, and the Examiner has indicated that correction is now required. Upon reviewing the drawings, Applicant notes that the objections are merely directed to margin and line deficiencies. Applicant believes that the drawings, as submitted with the filing of the application, are sufficient for review, and are unclear as to why the Examiner is stating that the reply must include corrected drawings. However, in an attempt to comply with the Examiner, an updated set of Figures accompanies this response. Accordingly, it is submitted that this objection, while improper, has been overcome and should be withdrawn.
